Flash Card Activity

Print pages 2-6, cut up the axiom pages. Review axiom sheet and sort the axioms into groups that make sense to you. These groups can be called factors, clusters, or chunks. Group one should be: "Key Axioms for SIAs and i1 Instructors." You should have no more than six groups. Cut up extra blank paper and label each group. Share your groups with other Space Voyage leaders (L3+, SIA, i1-i5); How were your groups different from theirs? Think of "Axiom 13" and adjust if you wish. Have fun!

AXIOMS AND ICONS... Create an Icon Deck

Find images in printed materials (newspapers, magazines, etc.) and on the net that represent each axiom. Share your pictures/graphics/icons with other Space Voyage leaders (L3+, SIA, i1-i5); Ask "Which axiom does this best represent?" Discuss. You can have many different images for each axiom. Optional: Create pages with eight (8) images on each, just like the axiom flash card deck. Share or print. Create your own Space Voyage Axiom Icon Deck (e.g., a slide deck of 2.75" x 4.25" of axiom images).
